

Infrared Weatherproof Surveillance Camera

This fixed lens camera is designed for surveillance applications. It features infrared LEDs for enhanced night vision capabilities and is enclosed in a weatherproof housing for outdoor use.

Product Overview

High-Resolution Surveillance Solution

This high-resolution fixed lens camera is engineered for reliable surveillance applications in diverse environments. Equipped with integrated infrared LEDs, it ensures superior night vision capabilities for continuous monitoring. The robust, weatherproof housing protects the internal components, making it an ideal choice for outdoor security deployments where clear and detailed video footage is essential.
