

Injector Nozzle Tight Cap for C7 C9 Injectors

This injector nozzle tight cap is designed for C7 and C9 injectors. It provides a secure, leak-proof seal to maintain optimal fuel injection performance.

ADDITIONAL IMAGES

Product Overview

Precision-engineered cap ensuring a secure seal for engine injectors.

Precision Injector Nozzle Cap

This high-precision tight cap is specifically engineered for C7 and C9 fuel injectors, providing a reliable and leak-proof seal. Crafted from high-speed steel, it is designed to endure demanding operational environments while maintaining optimal fuel system integrity. The component effectively fastens and protects the nozzle to ensure consistent engine performance in heavy-duty machinery.

Technical Details

Material	High speed steel
Function	Fasten and protect the oil nozzle

Compatibility

Compatible Injectors	C7, C9
