Product Overview

Instantaneous Hot Water Solution

The DR03A-D is a compact, point-of-use electric water heater designed to provide hot water on demand, effectively eliminating the need for bulky storage tanks. By heating water only when required, this unit significantly reduces energy waste while maintaining a modern, sleek aesthetic suitable for professional and residential environments. It features intuitive digital controls and robust safety mechanisms, including overheat and dry-heating protection, ensuring reliable performance in kitchens and bathrooms.
