

Insulated Diagonal Cutting Pliers

These diagonal cutting pliers are designed for electrical work, featuring insulated handles for safety. The pliers are made from high-quality steel, ensuring durability and reliability for cutting copper, aluminum, and steel wires.

Product Overview

High-Leverage Insulated Cutting Pliers

These professional-grade diagonal cutting pliers are engineered specifically for electrical work, offering a blend of durability and safety. Featuring induction-hardened cutting edges and precision-machined jaws, they ensure clean, reliable cuts across various wire types. The ergonomic handle design minimizes hand fatigue during extended use, while the integrated insulation provides essential protection against electrical shock.

Technical Specifications

Key Features

Induction-hardened edges • Precision-machined jaws • Ergonomic handles • Insulated for safety

Material Construction	High-quality steel
Suitable Materials	Copper wire, Aluminum wire, Steel wire
Design	Black and orange high-visibility color scheme
