

Insulated Female Wire Disconnect Terminal

Insulated female disconnects provide a reliable method for connecting and disconnecting wires. These connectors have color-coded insulation and are suitable for automotive, industrial, and household wiring.

Product Overview

Insulated Female Wire Disconnect Terminal

These insulated female disconnects are engineered for secure and reliable electrical connections across a variety of applications. Featuring a durable metal contact encased in color-coded insulation, they provide essential protection against electrical hazards while allowing for easy identification. Designed for quick and efficient wire termination, they are an ideal solution for automotive, industrial, and household electrical wiring projects.

Technical Specifications

Insulation	Insulated
Terminal Type	Female Disconnect

Applications

Common Applications	Automotive, Industrial, Household Wiring
