

# Insulated Terminal Crimping Tool

This crimping tool is designed for tab 90° flag terminals and flag female insulating joints. It is suitable for crimping lug connectors and non-insulated plug connectors with a crimping capacity of 1.25-2.5 mm<sup>2</sup>.

## Product Overview

### Professional Crimping Solution

This specialized crimping tool is engineered for precision work with tab 90° flag terminals and flag female insulating joints. Designed for efficiency and reliability, it ensures secure connections for lug connectors and non-insulated plug connectors. Its compact and lightweight build makes it an essential tool for electrical maintenance and assembly tasks.

## Technical Specifications

Crimping Capacity Range	1.25-2.5 mm <sup>2</sup>
Tool Length	220 mm
Weight	0.49 Kg

## Compatibility

### Supported Terminals

Tab 90° Flag Terminals • Flag Female Insulating Joints • Lug Connectors • Non-Insulated Plug Connectors

AWG Compatibility	AWG 3, AWG 6
-------------------	--------------

## Product Variants

### Model Comparison Table

Model	Capacity	AWG
LY-07FL	1.25-2.5 mm <sup>2</sup>	3-6
LY-05FL	4.8 mm <sup>2</sup>	3
LY-06FL	6.3 mm <sup>2</sup>	6
