Product Overview

Integrated Solar LED Street Light

This high-efficiency, off-grid integrated solar LED light is designed for reliable outdoor illumination in various environments, including streets, pathways, and parking lots. Engineered with high-grade monocrystalline solar cells, it offers a sustainable and cost-effective lighting solution that requires minimal maintenance. The robust IP65-rated construction ensures consistent performance across diverse weather conditions.

Technical Specifications

IP Rating

IP65

Available Power Outputs

20W, 30W, 40W, 50W, 60W, 80W, 100W, 120W

Solar Panel Technology

Monocrystalline Grade A

Physical Dimensions

Dimensions by Model

Power	Length (mm)	Width (mm)	Height (mm)
20W	829	276	112
30W	1079	276	112
40W	1019	352	112
50W	1324	352	112
60W	1324	352	112
80W	1409	517	112
100W	1678	517	112
120W	2000	517	112
