

# Intelligent LED Tube Light

This LED tube light is designed for high efficiency in a variety of lighting applications. It features intelligent control for optimized performance and energy saving.

## Product Overview

### Intelligent Illumination Solution

This high-efficiency LED tube is engineered for versatile lighting applications, catering to both commercial and residential environments. It incorporates intelligent control technology to optimize performance and ensure significant energy savings. Designed for longevity, it delivers consistent, bright, and uniform illumination.

## Certifications & Standards

Compliance

CE, ROHS

## Performance

### Suitable Environments

- Commercial lighting
- Residential lighting

### Key Features

Intelligent Control • Energy Saving • High Efficiency • Long Lifespan
