

Internal Combustion Engine

This internal combustion engine is designed with dual carburetors and a V-configuration. Its robust construction makes it suitable for industrial and automotive applications.

Overview

High-Performance Internal Combustion Engine

This robust internal combustion engine is engineered for demanding industrial and automotive applications. Featuring a distinct V-configuration design, the unit is built for reliability and consistent power delivery. Its professional-grade construction, highlighted by a uniform blue finish, ensures durability even in rigorous operating environments.

Technical Details

Key Components

- Oil Pan
- Intake Manifold
- Cylinder Head
- Air Filters

Build Quality

Professional Finish • Industrial Grade

Engine Configuration

V-Configuration (V6/V8)

Fuel System

Dual Carburetors
