Overview

Professional Power Cable Assemblies

These power cable assemblies are pre-terminated with high-quality plug or socket connectors, designed for reliable power transmission across diverse applications. They are suitable for household appliances, water pumps, lighting systems, and power tools. Built for safety and durability, these cords provide a versatile solution for connecting electronic devices to standard power sources.

Technical Details

Internal Wiring Colors

- Yellow/Green
- Blue
- Brown

Standard Compliance Codes

NSW26201 • N/400005362

Supported Connector Types

Three-pin Grounded Plug, CEE 7/7 Schuko Plug, Female Spade Connector, Ring Terminal

Construction Materials

Robust plastic plug bodies with PVC or similar insulating cable sheaths

Applications

Typical Applications

- Household Appliances
- Water Pumps
- Lighting Systems
- Power Tools
