

Inverter DC MMA Welding Machine

This compact welding machine offers low energy consumption and stable arc performance. It provides self-protection against over voltage, ensuring high welding quality.

Overview

High-Performance Welding Solution

This Inverter DC MMA Welding Machine is engineered for reliable and efficient welding operations in professional environments. It features adjustable current and arc force controls, allowing operators to fine-tune parameters for diverse welding tasks. With its robust construction and high efficiency, it serves as a dependable tool for demanding industrial applications.

Electrical Specifications

Input Voltage	AC380V \pm 15%
Input Frequency	50/60 Hz
Rated Input Power Capacity	18.2 KVA
Rated Input Current	27.6 A

Performance Metrics

Key Performance Indicators

400 A

Max Output Current

60 %

Duty Cycle

85 %

Efficiency

Output Current Range	30-400 A
No-Load Voltage	60 V
Arc Force Adjustment	0-100 A

Physical and Safety

Dimensions and Weight

Attribute	Value
Weight	28 KG
Dimensions	565 x 235 x 512 mm

Protection Class

IP21

Insulation Class	B
