Product Overview

Smart Illumination for Demanding Environments

This IP54 waterproof LED linear light is engineered for reliable performance in damp and dusty settings, such as parking lots, tunnels, and warehouses. Featuring an integrated microwave sensor, it automatically detects motion to optimize energy efficiency and reduce operational costs. The slim, 1.2-meter batten design ensures a clean aesthetic while simplifying installation for professional applications.

Technical Specifications

IP Rating

IP54

Power Rating

36 W

Length

1.2 m

Features

Key Features

- Integrated microwave motion sensor
- Waterproof construction
- Slim linear design
- Easy installation

Applications

Suitable Environments

Parking Garages, Tunnels, Warehouses, Shopping Malls, Office Buildings, Restaurants
