Product Overview

High-Efficiency LED Linear Lighting

This IP54-rated LED linear light is engineered for durability and performance in demanding environments like parking garages, tunnels, and damp commercial spaces. Featuring an integrated microwave sensor, it offers intelligent motion detection to enhance energy efficiency by automating lighting control. With its slim, elegant design and simple installation process, it serves as an ideal, modern replacement for traditional fluorescent batten fixtures.

Technical Specifications

Power Consumption

36 W

Rated Power

Ingress Protection

IP54

Fixture Length

1.2 m

Key Features

Microwave Sensor, Waterproof, Motion Detection, Slim Design, Easy Installation

Applications

Recommended Use Cases

- Parking garages
- Tunnels
- Warehouses and sheds
- Hotels
- Shopping malls
- Office buildings
- Restaurants and bars
