

IP56 Waterproof ABS Plastic Electronic Enclosure

This IP56 waterproof ABS plastic electronic enclosure box is designed for applications needing protection from dust and water. Constructed from durable ABS plastic, the enclosure ensures long-lasting performance in various environments, providing a secure solution for housing electronic components, wiring, and sensitive equipment.

Overview

High-Strength Waterproof Enclosure

This IP56-rated electronic enclosure is engineered from durable ABS plastic, providing a robust solution for housing sensitive electronic components and wiring. Designed to withstand demanding environments, it offers reliable protection against dust ingress and high-pressure water jets. The unit features a convenient press-fit cover and integrated cable sleeves, ensuring a secure and efficient installation process for various industrial and electrical applications.

Technical Specifications

IP Rating	IP56
Material	ABS Plastic
Key Features	Waterproof, High-Strength, Press-fit Cover, Cable Sleeves
Form Factor	Square
