Product Overview

Industrial High Bay Lighting

This high-performance LED high bay light is engineered for demanding industrial and commercial environments. With an IP65 rating, it offers robust protection against dust and water ingress, ensuring reliable operation in warehouses, factories, and large commercial spaces. The fixture combines efficient LED technology with durable construction to provide consistent, high-intensity illumination while minimizing long-term maintenance costs.

Performance Metrics

Luminous Efficacy

90 lm/w

Luminous Efficacy

Technical Specifications

IP Rating

IP65

Surge Protection

4000 V

Operating Environment

Operating Temperature

-50°C to +60°C

Applications

Recommended Use

Warehouses, Factories, Supermarkets, Restaurants, Indoor, Outdoor
