

IP65 Rectangular Metal Electronic Junction Box

This IP65 rectangular metal junction box is designed to safeguard electronic connections. Constructed from durable metal, it features pre-punched knockouts for simplified cable entry.

Product Overview

Robust Protection for Electrical Components

This rectangular metal junction box is engineered to provide reliable protection for sensitive electrical and IT components in demanding environments. With an IP65 rating, it ensures excellent resistance against dust and water ingress, making it suitable for a variety of industrial and commercial applications. The durable metal construction offers enhanced security and longevity, while pre-punched knockouts facilitate efficient cable management and installation.

Technical Specifications

Ingress Protection Rating

IP65

Suitable Applications

- Electronic component housing
- IT infrastructure protection
- Electrical connection safeguarding

Material

Metal

Key Features

Weatherproof, Rectangular Design, Pre-punched Knockouts, Durable Construction
