

IP65 Waterproof LED Doorbell Switch

This IP65 rated doorbell switch is waterproof, shockproof, and dustproof. It features an integrated LED and screw-less terminals for easy installation.

Overview

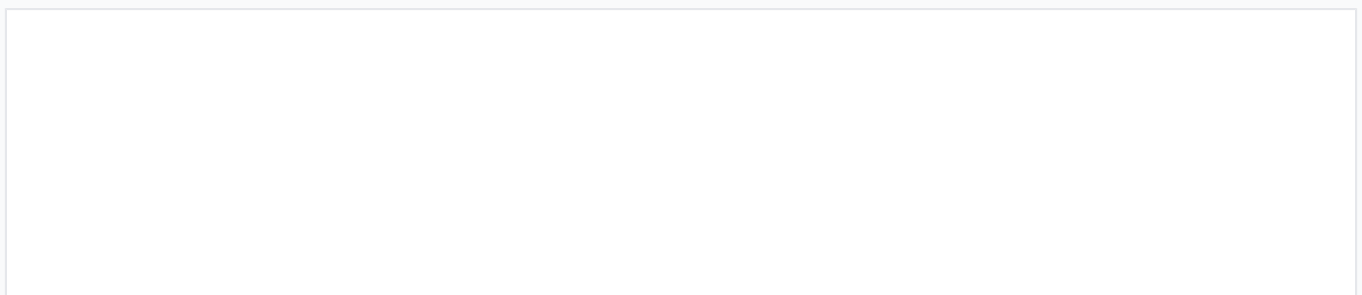

Engineered for durability, this switch provides complete protection against dust and water jets, making it ideal for exposed outdoor locations.

Robust Outdoor Connectivity

This IP65-rated surface-mounted doorbell switch is engineered for demanding environments, offering superior protection against dust, water jets, and environmental contaminants. Designed with user-friendly features like screw-less terminals and a quick-lock mechanism, it ensures efficient installation and reliable performance. The unit features an integrated white LED indicator for clear visibility and is constructed from durable, fire-resistant thermoplastic materials suitable for both indoor and outdoor applications.

Technical Specifications

Designed for reliability, the switch mechanism is protected against environmental factors, ensuring consistent performance in power distribution systems.

Ingress Protection

IP65

Rated Voltage	250 V
Rated Current	10 AX
Network Frequency	50/60Hz
Switch Function	1 way

Design & Installation

The compact surface-mount design allows for easy installation in both residential and commercial settings, featuring a clear LED status indicator.

Mounting Type	Surface mounting
Fixing Mode	Screw-less terminal
Wire Stripping Length	12 mm
Enclosure Outlet Compatibility	4-8mm, 8-12mm, 12-16mm, 16-20mm

Features

Key Advantages

- Dust and water spray resistant (IP65)
- Tamper-resistant system for child safety
- Halogen-free and fire-resistant thermoplastic construction
- Quick-lock structure (90-degree rotation)
- Modular design for easy installation and component replacement
- High-transmittance LED indicator

Materials	TPE, PP, PC-UV
