

IPL Hair Removal Device

This IPL hair removal device uses intense pulsed light to disrupt hair growth at the root. It features adjustable energy levels and a skin contact sensor for safe and effective hair removal.

Product Overview

Professional IPL Hair Removal

This IPL hair removal device offers a convenient and efficient solution for achieving smooth, hair-free skin at home. Utilizing advanced Intense Pulsed Light technology, it targets hair follicles to disrupt growth at the root. The ergonomic design ensures comfortable handling, while integrated safety features like skin contact sensors and cooling systems provide a reliable treatment experience.

Performance Metrics

Shooting Interval

0.8 s Min Interval	3 s Max Interval
------------------------------	----------------------------

Window Energy 5 J/cm²

Window Size 3 cm²

Technical Specifications

Power Rating	24 W
Input Voltage	100-240V / 50-60Hz
Output Voltage	12VDC 3A
Dimensions	145 x 77 x 220 mm

Features & Functionality

Key Features

- Intelligent skin color and distance induction
- Auto-suggested mode based on skin condition
- LED status indicators
- Built-in cooling system
- Skin contact safety sensor

Flash Lifespan 300000 shoots

Energy Levels 6
