

Iridium-Platinum Motorcycle Spark Plug

This iridium-platinum spark plug is designed for motorcycle engines. It features a fine-wire iridium center electrode and a platinum ground electrode for enhanced ignitability and longer life.

Product Overview

High-Performance Ignition Solutions

These iridium-platinum spark plugs are engineered for superior ignitability and extended service life in motorcycle engines. Featuring advanced designs like V-cut and V-groove center electrodes, they ensure reliable starting, smooth acceleration, and improved fuel efficiency. Designed to withstand high temperatures and pressures, these components provide exceptional durability and consistent performance for a wide range of motorcycle applications.

Technical Specifications

Available Model Codes

- D8TC
- F7YC

Available Electrode Configurations

Iridium-Platinum, Multi-ground electrode, V-cut center-electrode, Surface-sparking, Nickel copper, V-groove center-electrode
