Product Overview

Optimized Air Intake System

This high-performance turbocharger is precision-engineered for ISF3.8 engine applications, specifically tailored for Foton truck systems. It functions by forcing additional air into the combustion chamber to significantly enhance engine power, responsiveness, and fuel efficiency. Built with robust metal construction, this aftermarket component ensures long-term reliability and durability under diverse and demanding operational conditions.

Technical Specifications

Part Numbers	3773119, 5350917
Engine Application	ISF3.8
Material	Metal
