Product Overview

Overview of the smart features, app integration, and technical capabilities of the ITO glass scale.

Advanced Body Composition Analysis

This smart body composition scale utilizes advanced ITO (Indium Tin Oxide) technology on a durable 5mm tempered glass platform to deliver high-precision measurements. By leveraging Bluetooth connectivity and the 'Dr.Weight' application, users can seamlessly track a comprehensive suite of health metrics including body fat percentage, muscle mass, BMI, and visceral fat. Designed for modern health management, it supports multiple users and provides clear, actionable data through an intuitive digital interface.

Technical Specifications

Weight Capacity

180 kg

Max Capacity

396 lb

Max Capacity

28 st

Max Capacity

Measurement Division	100g (0.2lb / 1/4st)
Platform Dimensions	280 x 280 x 22 mm
Power Supply	3 x AAA batteries (included)
Display	LED with white digits (28mm segment height)

Measurement Metrics

Available Health Metrics

Category	Metrics
Traditional	Weight, BMI, Body Fat %, Water Content %, Muscle Mass, KCAL, Bone Mass
Advanced	Muscle Rate %, Protein Rate %, Metabolic Age, Visceral Fat, Standard Weight, Weight Control, Fat Mass, Fat-Free Weight, Protein Mass, Obesity Level, Body Type

Features & Connectivity

Smart Functions

- Auto-on / Auto-off
- Overload indication
- Low battery indication
- 4 precision strain gauge sensors
- ITO technology for enhanced accuracy

Connectivity	Bluetooth, App Control, iOS Compatible, Android Compatible
