

ITX Series Computer Case with IFX-300W Power Supply

The ITX series computer case is designed for compact and efficient builds. It includes the IFX-300W power supply unit which supports 110/230V AC input and provides comprehensive protection features.

Product Overview

Compact ITX Series Solution

The ITX series computer case offers a versatile and efficient foundation for compact system builds. It comes equipped with a reliable 300W power supply unit designed to handle standard 110/230V AC inputs. With robust protection features and a space-saving design, this case is an ideal choice for professional-grade, small-form-factor computing environments.

Electrical & Protection

Electrical Specifications

Parameter	Value
Input Voltage	110/230V AC
Frequency	47Hz-63Hz
Max Current	6.0A
Surge Current	60A (Cold Start)
Line Regulation	±1%

Safety & Protection

OPP, OVP, OUP, Short Circuit Protection

Physical & Mechanical

Chassis Material	SECC with nickel-plated finish and painting
Dimensions (L*W*H)	178*85*65 mm
Cooling Fan	6cm fan
Packing	20 units/box
