

Jewel Case for Compact Disc Storage

This transparent jewel case provides secure storage for compact discs. Its hinged design allows for easy opening and closing while protecting the disc inside.

Product Overview

Professional Disc Protection

This transparent blue jewel case is engineered for the reliable storage and protection of compact discs. Its durable plastic construction offers excellent resistance against scratches and impacts, ensuring your media remains safe during transport or archival. The hinged design allows for seamless access, while the clear material provides immediate visibility of the disc label.
