

Jigsaw Puzzle Cutting Machine

This jigsaw puzzle cutting machine is used for cutting various sizes of puzzles. It utilizes precision cutting mechanisms to ensure accurate and consistent puzzle piece shapes.

Overview

Professional Jigsaw Puzzle Production

This specialized cutting machine is designed for the high-volume production of jigsaw puzzles, scrapbooking dies, and various steel rule dies for the printing and packaging industry. Built for durability and precision, it supports a wide range of puzzle sizes, from small custom shapes to large format 3000-piece puzzles. The system offers versatile power configurations to suit different industrial environments.

Technical Specifications

Processing Width	50 inches
Power Consumption	3000 - 3500
Power Supply	220V, 380V, 110V, One Phase, Three Phase

Capacity & Performance

Maximum Puzzle Capacity

3000 pcs
Max Pieces

120 cm
Max Length

100 cm
Max Width

Supported Standard Die Sizes

Dimensions	Piece Count
100 x 120 cm	3000
80 x 100 cm	2000
60 x 80 cm	1500
48 x 68 cm	1008
40 x 60 cm	360
A1	1200
A2	768
A3	384
A4	192

Special Shape Die Capabilities

- Heart shape: 200 x 175 mm (34 pcs)
- Heart shape: 30 x 26 cm (80 pcs)
- Oval: 83 x 62 mm (103 pcs)
- Round: 30 x 30 cm (120 pcs)
