

# Jigsaw Puzzle Die Cutting Machine

This machine is designed for die cutting jigsaw puzzles. It can produce various sizes and piece counts, using steel rule dies for the printing and packing industry.

## Overview

### Precision Jigsaw Puzzle Production

The TYC26 is a specialized die cutting machine engineered for the printing and packaging industry. Designed for high-volume production, it efficiently processes various puzzle sizes up to 50x75cm. This versatile equipment supports custom die designs, allowing manufacturers to create tailored puzzle piece counts and shapes according to specific customer requirements.

## Technical Specifications

|                  |   |
|------------------|---|
| Processing Width | 26 inch                                     |
| Maximum Capacity | 50 x 75 cm (1000 pieces)                    |
| Power Rating     | 1500 W                                      |
| Power Supply     | 220V, 380V, 110V, Single Phase, Three Phase |

## Die Compatibility

### Standard Die Configurations

| Size/Dimension | Piece Count |
|----------------|-------------|
| 50 x 75 cm     | 1000        |
| 48 x 68 cm     | 1008        |
| 40 x 60 cm     | 360         |
| A2             | 768         |
| A3             | 384         |
| A4             | 192         |
| 16 x 20 inch   | 320         |
| 11 x 14 inch   | 252         |

|                     |  |
