

Jigsaw Puzzle Die Cutting Machine

This machine is designed for creating jigsaw puzzles, scrapbooking dies and cutting dies. It is suitable for various materials used in the printing and packing industry.

Overview

Professional Jigsaw Puzzle Die Cutting Solution

The TYC40 is a specialized die cutting machine engineered for the precision production of jigsaw puzzles, scrapbooking dies, and steel rule dies for the printing and packing industry. Designed for high-volume efficiency, it supports a wide range of puzzle sizes and piece counts, accommodating materials up to 80x100cm. This robust machine offers versatile power configurations and custom die design capabilities to meet specific manufacturing requirements.

Technical Specifications

Maximum Puzzle Capacity

2000 pcs

Max Pieces

80 cm

Max Width

100 cm

Max Length

Processing Width	40 inches
Power Consumption	3000 W
Power Supply Options	220V, 380V, 110V, Single Phase, Three Phase

Die Compatibility

Standard Die Configurations

Format	Piece Count
80x100cm	2000
60x80cm	1500
50x75cm	1000
A2	768
A3	120
A4	88

Special Shape Capabilities

- Heart shape: 200x175mm (34pcs)
- Oval: 83x62mm (103pcs)
- Heart shape: 30x26cm (80pcs)
- Round: 30x30cm (120pcs)

Custom Design Availability	Yes
