

JIS 10K Non-Rising Stem Gate Valve DN 50-300

This JIS 10K non-rising stem gate valve is designed for industrial applications requiring reliable flow control. Constructed from durable materials, it ensures longevity and resistance to corrosion.

Overview

JIS 10K Non-Rising Stem Gate Valve

This JIS 10K non-rising stem gate valve is designed for industrial applications requiring reliable flow control. Its robust construction ensures long-term durability and resistance to corrosion in demanding environments. The non-rising stem design makes it an excellent choice for installations where vertical space is limited, while full compliance with JIS standards guarantees consistent performance and compatibility in water, oil, and gas pipeline systems.

Technical Specifications

Standard
JIS

Valve Type	Non-Rising Stem Gate Valve
------------	----------------------------

Pressure Rating	10K
-----------------	-----

Size Range (DN)	50-300
-----------------	--------

Applications

Suitable Media	Water, Oil, Gas
----------------	-----------------
