

JIS Marine 2-Way Ball Valve

This 2-way ball valve is designed for marine applications, adhering to JIS standards. It is available in stainless steel, cast steel, and cast bronze.

Product Overview

JIS Marine 2-Way Ball Valve

These 2-way ball valves are engineered specifically for marine applications, ensuring reliable fluid control in demanding maritime environments. Constructed from high-durability materials including stainless steel, cast steel, and cast bronze, they offer excellent resistance to corrosion and wear. Designed to meet strict industrial standards, these valves provide consistent performance across a wide range of pressure ratings and sizes.

Material & Construction

Available Materials

Stainless Steel, Cast Steel, Cast Bronze, Cast Iron

Technical Specifications

Pressure Ratings & Size Range

Pressure Rating	Size Range (DN)
5K	15 - 100
10K	15 - 100
20K	15 - 50
30K	15 - 50

Valve Configuration

2-Way Ball Valve

Standards & Compliance

JIS Compliance
