Product Overview

JIS Marine Bronze Globe Check Valve

This JIS marine bronze globe check valve is engineered for reliable backflow prevention and flow control in demanding marine environments. Constructed from high-quality bronze, it provides superior corrosion resistance against saltwater, making it an ideal choice for shipbuilding and offshore platforms. The globe-style design ensures tight shutoff and efficient performance, adhering to Japanese Industrial Standards for seamless integration into marine piping systems.

Material Composition

Body Material	BC6 Bronze
Bonnet Material	BC6 Bronze
Disc Material	BC6 Bronze
Stem Material	C3771BD
Handwheel Material	FC200 Cast Iron

Technical Standards

Valve Type

Globe Check Valve • Marine Grade

JIS Standards	F7351, F7409
