

Kerosene Engine 4.0-6.0 HP

This kerosene engine is designed for power generation. It features a displacement of 163cc, 196cc, or 208cc, delivering 4.0HP, 5.3HP, or 6.0HP respectively.

Product Overview

Versatile Kerosene Engine Series

This kerosene engine series is engineered for reliable power generation across various industrial and agricultural applications. With flexible displacement options of 163cc, 196cc, and 208cc, it delivers robust performance ranging from 4.0HP to 6.0HP. Designed for integration into engine-driven power generation equipment, this unit offers a dependable solution for users requiring consistent mechanical power.

Technical Performance

Power Output

4 HP Minimum Power	6 HP Maximum Power
------------------------------	------------------------------

Displacement Options

- 163
- 196
- 208

Application

Fuel Type

Kerosene

Primary Application

Engine-driven power generation equipment
