

Kitchen Countertop Blender with Multiple Jars

This kitchen blender is designed to extract complete nutrition from ingredients. It features a main blending jar with a filter insert and comes with two additional blending cups for individual servings.

Product Overview

Versatile Kitchen Blending Solution

This kitchen countertop blender is designed for efficiency and versatility, featuring a robust base with a intuitive rotary dial for precise control. It includes a large main blending jar with a convenient filter insert, perfect for creating smooth juices and smoothies. Additionally, the set comes with two smaller blending cups, making it ideal for individual servings or quick, on-the-go portions.
