

Kitchen Range Hood with LED Lighting

This kitchen range hood is designed for efficient ventilation. It features a stainless steel finish, curved glass canopy, and integrated control panel.

Product Overview

Sleek Kitchen Ventilation

This modern kitchen range hood features a sophisticated stainless steel finish and a curved glass canopy that seamlessly integrates into contemporary kitchen designs. It provides robust ventilation to effectively capture and remove smoke, grease, and odors, maintaining a clean culinary environment. With multi-speed fan control and bright LED illumination, it offers both functional performance and enhanced visibility over your cooking surface.

Technical Specifications

Finish	Stainless steel with curved glass canopy
Lighting	Integrated LED
Fan Control	Multi-speed settings

Features

Performance Capabilities

- Efficient smoke extraction
- Grease removal
- Odor neutralization
- Cooking area illumination

Design Style	Modern, Sleek, Professional, Contemporary
