

# Kitchen Sterilizing Appliance

This sterilizing appliance is designed for household use in kitchen environments. Its sleek, all-black design includes a circular glass door and a digital display for monitoring operation.

## Product Overview

### Professional Kitchen Sterilization

This high-capacity sterilizing appliance provides advanced hygiene solutions for professional and modern kitchens. Combining UV and OZONE disinfection technologies with a PTC hot air drying system, it ensures thorough sanitation of kitchenware. The intuitive touch control panel and LED display allow for precise operation monitoring, while the durable tempered glass and stainless steel construction guarantee longevity.

## Physical Dimensions

Internal Capacity	100 L
Product Dimensions (WxHxD)	595 x 595 x 500 mm
Required Built-in Size (WxHxD)	600 x 600 x 550 mm

## Performance Metrics

Level of Disinfection	
Sterilization Methods	UV, OZONE
Drying System	PTC internal recycling hot air
Operating Temperature	70

## Technical Specifications

Construction Materials	
<ul style="list-style-type: none"><li>Front Panel: Tempered Glass</li><li>Inner Body/Shelf: Inox Aisi 430</li></ul>	
Control System	Micro-computer control with Touch Control & LED Display
Safety Features	Yes
