

Kitchen Ventilation Hood

This is a kitchen ventilation hood designed to remove smoke and odors. It mounts above a cooking range and features multiple control buttons.

Product Overview

Kitchen Ventilation Hood

This kitchen ventilation hood is designed for seamless integration beneath existing cabinetry, providing effective airflow for cooking environments. It features a durable construction with a transparent visor and dual circular vents for optimal performance. The intuitive front-facing control panel allows for easy operation, making it a reliable solution for professional and residential kitchen ventilation.
