

KM186 Diesel Engine

The KM186 diesel engine is designed for various agricultural and industrial applications. This engine features a durable construction for long-lasting performance in demanding environments.

Overview

Robust Industrial Diesel Engine

This diesel engine is engineered for reliable performance in demanding agricultural and industrial environments. Featuring a compact and durable construction, it is designed for seamless integration into existing machinery. With a high-efficiency combustion system and straightforward maintenance requirements, it provides a dependable power solution for professional applications.

Rated Power

35 HP

Power Output

Rated Speed

2200 RPM

Rotation Speed

Technical Specifications

Model Number	KM186
--------------	-------

Maintenance & Operation

Fuel Grade Recommendations

- Summer: 0# Diesel
- Winter: -10# to -20# Diesel

Maintenance Intervals

Action	Interval
Cleaning	Every 100 hours
Oil Change	Every 500 hours

Safety

Safety Considerations	High-Speed Operation Warning, Hazard Awareness Required
