Overview

Professional Electric Knapsack Sprayer

The FST-20DS is a high-performance knapsack electric sprayer engineered for agricultural, gardening, and plant protection tasks. Designed for efficiency and operator comfort, this unit features a 20-liter tank capacity and a cordless battery-powered system that eliminates the need for manual pumping. With its ergonomic backpack design, including padded shoulder straps and back support, it is built for extended use in fields, greenhouses, and gardens.
