

Knapsack Garden Sprayer with Adjustable Nozzle

This knapsack garden sprayer is designed for efficient and comfortable spraying in gardens and farms. It features a durable plastic tank with adjustable shoulder straps, a manual pump handle, and a spray wand with an adjustable nozzle for precise control over spray patterns.

Overview

Professional Agricultural Sprayer

This 20-liter electronic knapsack sprayer is designed for efficient liquid application in gardens, farms, and agricultural settings. Featuring a durable tank and an automated pump system, it provides consistent flow for pesticides, herbicides, and fertilizers. The adjustable stainless steel lance and multiple nozzle options ensure precise coverage for various crop and plant requirements.
