

# Large Capacity Diesel Generator Set

This large capacity diesel generator set is designed for heavy-duty power generation. It features a robust diesel engine coupled with a high-output alternator for reliable and efficient power.

## Product Overview

### High-Capacity Industrial Power Solutions

These heavy-duty diesel generator sets are engineered for reliable, high-voltage industrial power generation. Featuring advanced engine and alternator technology, the units deliver consistent output ranging from 150KW to 5000KW. Designed for versatility, they are suitable for common, automated, and remote-controlled applications, ensuring stable energy performance in the most demanding environments.

## Technical Specifications

### Power Range

**150 KW**

Minimum Power

**5000 KW**

Maximum Power

### Available Voltages

6300V, 11000V

## Operational Capabilities

### Unit Configurations

- Common type
- Automation and remote control type
- Remote inquiry unit
- Multi-parallel units

## Service and Support

### Service Commitment

24-Hour Problem Resolution • Nationwide Service Network
