Overview

High-Performance Laundry Solution

This large-capacity front-load washing machine is engineered for efficient and thorough laundry care, featuring a sleek, modern design that fits professional environments. It incorporates advanced technology to deliver optimal cleaning results while significantly minimizing energy consumption. With a robust build quality and intuitive control interface, it offers reliable performance and long-lasting durability for various load sizes.

Technical Specifications

Motor Technology	DD Inverter Motor / BLDC Inverter Motor (Optional)
Core Functionalities	Automatic Detergent Dispensing, Steam Cleaning, Self-Cleaning Cycle, Delay Start, Child Lock, Automatic Error Detection

Performance

Operational Benefits

- Large-capacity drum for bulky items
- Reduced energy consumption
- Quiet operation
- Extended motor lifespan
- Customizable wash cycles
