Product Overview

High-Performance Purification for Large Spaces

This large room air purifier is engineered to provide efficient air cleaning for spaces ranging from 35j to 60j. Utilizing a robust 3-stage filtration system including an H13 HEPA filter and coconut active carbon, it effectively captures 99.95% of airborne particles down to 0.3 microns while neutralizing odors. Designed for convenience and intelligence, the unit features a laser dust sensor, real-time PM 2.5 monitoring, and versatile operation modes to ensure optimal air quality.

Performance

Clean Air Delivery Rate (CADR)

500 m3/h
CADR

Recommended Room Size

35j - 60j

Filtration System

Filtration Stages

- Nylon Pre-filter (removes large particles like hair and pet dander)
- H13 HEPA Filter (99.95% filtration efficiency for particles down to 0.3 microns)
- Coconut Active Carbon Filter (removes odors)

Smart Features & Controls

Monitoring & Indicators

Air Quality Indicator • PM 2.5 Index • Filter Replacement Indicator

Operation Modes	Auto, Manual, Sleep
Fan Speed Settings	4 levels
Timer Options	1H, 4H, 8H

Safety & Convenience

Safety Features	Yes
Child Lock	Yes

Optional Customizations

Available Upgrades

- Negative Ion Generator
- UV-C Light
- App Control Connectivity
