Overview

Professional Laser Distance Meter

This versatile laser distance meter is engineered for precise measurements in both home renovation and industrial environments. Featuring a rugged, ergonomic design with an IP54 rating, it offers protection against dust and water splashes. With multiple calculation modes including area, volume, and Pythagorean theorem, it provides professional-grade accuracy and efficiency for any measuring task.

Technical Specifications

Performance by Model

Model	Measurement Range
JX-50	0.05 - 50m
JX-70	0.05 - 70m
JX-100	0.05 - 100m

Accuracy & Laser Data

2 mm

Measurement Accuracy

1 mm

Display Accuracy

Laser Specifications

Class 2MII, 620-690nm, <1mW

Features

Measurement Modes

- Continuous Measurement
- Area Calculation
- Volume Calculation
- Single Pythagorean
- Double Pythagorean
- Addition/Subtraction

Protection Rating

IP54 Waterproof • Dustproof

Additional Capabilities

- Large Data Storage
- Optional Voice Broadcast

Power Options

AAA Batteries, Rechargeable Battery
