

Laser Engraving and Cutting Machine

This laser engraving and cutting machine is designed for precision cutting and engraving of various materials. It features a viewing window for monitoring the laser process and a control panel for adjusting settings.

Overview

Precision Laser Engraving and Cutting

The WK40A laser engraving and cutting machine is engineered for high-precision material processing. Designed with a dedicated viewing window for process monitoring and an intuitive control panel, it offers seamless operation for both hobbyists and professional users. The system includes an integrated cooling mechanism and exhaust fan to maintain optimal performance and safety standards during extended use.

Technical Specifications

Key Features

- Integrated cooling system
- Built-in exhaust fan
- Safety viewing window
- Adjustable control panel

Model Number	WK40A
Suitable Users	Hobbyists, Professional Users
