

Laser Tape Measure with Bubble Level

This combination tool integrates a standard tape measure with a laser pointer. It also includes a bubble level to ensure accurate horizontal alignment.

Product Overview

Professional Laser Measurement Tool

This versatile tool combines a standard 3-meter tape measure with an integrated precision laser level, providing both metric and imperial measurement capabilities. Designed for professional use, it features a clear laser cross-line output for accurate leveling and marking tasks. Its compact design and robust construction ensure reliable operation in a variety of work environments.

Technical Specifications

Maximum Laser Power

1 mW

Laser Power

Laser Wavelength	650 nm
Laser Class	2
Laser Cross Precision	0.2 °
Tape Measure Length	3 m

Operating Environment

Operating Temperature	0°C to 40°C
Storage Temperature	-10°C to 70°C

Power Requirements

Battery Type

- 2 x AAA
- 1.5V DC

Compliance

Regulatory Standards	EN 60825-1:2014
