

Laser Welded Concrete Cutting Saw Blade

This is a laser welded circular saw blade designed for cutting concrete. It features durable construction for extended life and efficient cutting.

Product Overview

High-Performance Cutting Solution

This laser-welded circular saw blade is engineered specifically for demanding concrete cutting applications. Its robust construction ensures an extended service life and consistent, efficient performance on the job site. Designed for compatibility with a wide range of industrial power tools, it offers reliability for professional construction tasks.

Technical Specifications

Blade Diameter	12 inch
Welding Technology	Laser Welded
Compatible Materials	Concrete

Safety & Compliance

Safety Requirements

- Read safety rules before using
- Always wear eye protection
- Use only on machines with guard in place
