

Laundry Washing and Drying Machine

This machine combines washing and drying functionality into one appliance. It provides a convenient laundry solution for cleaning and drying clothes.

Product Overview

Industrial Laundry Solutions

This professional-grade laundry machine integrates both washing and drying capabilities into a single, high-efficiency unit. Designed for B2B environments, it provides reliable performance for heavy-duty cleaning tasks. The machine is engineered to optimize throughput while ensuring superior fabric care and energy efficiency.

Performance Metrics

Core Capabilities

20 kg

Max Wash Capacity

15 kg

Max Dry Capacity

1200 RPM

Max Spin Speed

Technical Specifications

Available Cycles

- Sanitize Wash
- Delicate Cycle
- Heavy Duty Cleaning
- High-Temperature Dry
- Energy-Save Mode

Material Specifications

Component	Material Type
Inner Drum	Stainless Steel 304
Outer Cabinet	Powder Coated Steel

Compliance

CE Certified, ISO 9001, RoHS Compliant
