

Lawn Mower for Grass Cutting

This lawn mower is designed for cutting grass efficiently. It helps maintain a neat and well-groomed lawn.

Overview

High-Performance Petrol Lawnmower

This robust petrol lawnmower is engineered for efficiency and durability, featuring a powerful 141cc OHV engine. Designed with a steel deck and self-propelled functionality, it simplifies lawn maintenance for professional and commercial applications. The adjustable cutting height and large grass catcher ensure a clean, precise finish on various terrain types.
