

LCD Screen Connector for Auto Dashboard

This flat LCD connector is designed for connecting to a VW Fox dashboard. It facilitates electrical connection between the LCD screen and the dashboard's control circuitry.

Product Overview

Precision Automotive Connectivity

This flat LCD connector is specifically engineered for automotive dashboard integration. It features a flexible substrate design with parallel conductive traces to ensure reliable electrical connectivity between the screen and control circuitry. Built for durability and precise alignment, this component is an essential replacement part for dashboard display repairs.

Technical Specifications

Connector Type	Flat LCD Connector
Compatible Vehicle Model	VW Fox
Design Features	Flexible Substrate, Parallel Conductive Traces, Alignment Holes

Ordering Information

Minimum Order Quantity	10 pieces
