Product Overview

Heavy-Duty Suspension System

This robust leaf spring suspension system is engineered specifically for heavy construction machinery, including loaders, excavators, and bulldozers. Featuring a durable multi-axle configuration and high-strength leaf springs, it is designed to provide exceptional stability and load-bearing capacity in the most demanding site conditions. The system ensures reliable performance and durability for intensive industrial applications.

Technical Specifications

Load Capacity

13 T

Rated Capacity

Suspension Type	Leaf Spring (American-style tandem)
Compatible Machinery	Loaders, Excavators, Bulldozers

Design & Build

Construction Features

- Heavy-duty leaf spring design
- Multi-axle configuration
- Reinforced yellow-painted housing
