

Leather and Tire Surface Enhancing Wax

This product enhances and protects leather and tire surfaces. It increases gloss, renews the natural finish, removes dirt, and polishes surfaces while providing a protective layer.

Product Overview

Surface Care Solution

This specialized wax is designed to enhance and protect both leather and tire surfaces. It effectively removes dirt while restoring a natural, high-gloss finish to treated materials. The formula provides a durable protective layer that helps maintain the appearance and condition of surfaces for an extended period.

Key Features

Performance Highlights

15 Days

Effect Duration

450 ml

Net Content

Primary Benefits
