

Leather Palm Gardening Gloves with Gauntlet Cuff

These gardening gloves feature a durable leather palm and fingers for protection. They also have a breathable gauntlet cuff to shield the forearm from scratches and thorns, making them ideal for pruning, planting, and general yard work.

Product Overview

Professional Protection for Gardening

These gardening gloves are expertly designed with a durable leather palm and fingers, providing essential protection against thorns, branches, and abrasive materials. The integrated gauntlet cuff extends coverage to the forearm, effectively shielding the user from scratches and debris during pruning and planting tasks. Combining robust material construction with a comfortable fit, these gloves ensure both dexterity and safety for all general yard work and landscaping applications.
